SUMMARY

Highly skilled web developer with 5 years of experience specializing in React.js, JavaScript, HTML and CSS. Familiar with backend development using Node.js. Proven track record of delivering clean, maintainable code. Passionate about leveraging emerging technologies to create intuitive user experiences and drive business success.

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS
Technologies: React, Next.js, React Native, Node.js, Nest.js
Databases: MySQL, MongoDB
Others: Redux, Fabric.js, React-Konva, SASS, Tailwind CSS

EXPERIENCE

Development Engineer   June 2022 – To Present
AVIZVA Solutions   *Indore, India*

- Enhanced the internal UI framework by integrating Storybook and implementing an atomic structure for components.
- Implemented an authorization framework on the frontend to dynamically control the visibility of widgets.
- Played a key role in the design, development, and on-time delivery of the claim submission feature, contributing to increased efficiency and reduced processing time for claims.

Web Developer   Nov 2019 – June 2022
WebiWork Technologies   *Indore, India*

- Received consistent praise from the stakeholders for delivering high-quality work and meeting tight project deadlines.
- Demonstrated adaptability by quickly learning and working with new frameworks and tools as required by various projects.
- Successfully developed numerous web applications over a span of 3 years.
- Independently designed, developed, and deployed software applications.

EDUCATION

Indira Gandhi National Open University   **2019**
Bachelor of Computer Applications   *Indore, India*

PROJECTS

Braceline | *React, Konva.js, Meteor.js, MongoDB*
https://bracelinecalc.com

- A visual tool for creating wall bracing plans, used by Draftsman, Designers, and Architects to build houses.
- Implemented several algorithms for wall bracing calculations, significantly enhancing the tool's functionality.
- Took ownership of this challenging project, quickly acquired the required tech stack, and met all expectations on time.

CoolPrints | *React, Node.js, Konva.js, MySQL*
https://coolprints.netlify.app

- A print on demand web application where customers can order products with customized designs.
- Engineered the product editor tool, empowering users to personalize chosen products.
- Developed admin and vendor dashboards for efficient product and sales management.

Aflac - Provider Portal | *React, Redux, WebSockets, SASS*
https://providerportal.aflac.com

- A dashboard for dental and vision insurance providers to submit claims, manage patient details, and track claims.
- Implemented claim submission functionality along with various related features.
- Added Dynatrace for monitoring and tracking of errors.
